

Amendments to the Specification

1. A second substitute specification is herewith submitted in compliance with 37 CFR §§ 1.52, 1.121(b)(3), and 1.125(b) and (c), namely, (1) a clean version of the second substitute specification, and (2) a copy of the second substitute specification with markings to show changes (strikethrough for deleted subject matter and underlining for added matter).

In this regard, please replace the specification as originally filed with this second substitute specification. Applicants state that no new matter has been added. The changes to the specification are as fully described in the “Amendment and Response to Second Office Action in RCE” filed March 14, 2007.

It is noted that the changes marked on the “marked” version are relative to the originally filed application. The original Abstract has been replaced (see below). The claims from the original application have all been removed from the substitute specification in accordance with 37 CFR 1.125(b).

The claims now stand as amended in the paper filed March 14, 2007.
